

RAINBOW ROOM

Notices

Remember to send your child to school in warm clothes and hats if possible, as we will be doing lots of exploring outdoors.

Please do not bring any toys, blankets or dummies into school.

Don't forget to pay your snack please - £1 per week.

- We love to make our own playdough together every week. The children
- all work together as a team, adding the different ingredients, then tak-
- ing turns to stir. Everyone has their own bag of playdough, which they
- keep in their drawers and access independently.

Last week we have been birdwatching. The children were interested in the different birds visiting our garden, so we made our own bird cakes. Everybody helped and decided where to put them. The children check regularly to see if they have been eaten and put more out if they need to.

This week we have been exploring different vegetables, printing with them and making our own delicious soup.

Next week we plan to start looking at Autumn, learning about colours, making leaf pictures and thinking about the woodland animals in Autumn. We will be looking at Autumn fruits and making something delicious.

We also plan to have some Halloween fun before half term with pumpkins, Jack-o'-lanterns, Halloween crafts and exploring slime and witches' brew.
